PROFESSIONAL SUMMARY

Junior Software Engineer and Java / Python developer (Spring Boot, FastAPI) with 1+ year of experience and 6 projects delivered, 4 of them live in production. Automated extraction across 100+ insurance document types at 90–95% accuracy, cutting processing time from hours to seconds.

EXPERIENCE

Junior Software Engineer, Tech Tammina LLC — Hyderabad, IND Aug 2025 – Present

AI Document Automation (Sensible AI)

- Automated insurance document extraction (policy renewals, ACORD forms) with Sensible AI, LLM prompts and SenseML queries across 100+ document types at 90–95% accuracy, reducing processing time from hours to seconds.

HTML to Excel Converter Plugin Nov 2025 – Jan 2026

- Developed a full-stack plugin (Java, Spring Boot, SheetJS) that converts HTML tables with merged and nested cells into .xlsx and .csv files for Appian reporting.

Agency Management System (AMS) and Fleet Management System Feb 2026 – Present

- Worked on backend modules, support and debugging in Python (FastAPI) for AMS and the role-based Fleet Management System in production, containerized with Docker and deployed on AWS; fixed authentication/token and payment-flow issues.

Freelance Developer (Part-time), NRK Travels and BSH Taxi Services 2026 – Present

- NRK Travels (nrktravels.in, nrktravelsaccounts.com): booking website with React, Vite and Tailwind CSS; SabPaisa payments; SEO and mobile performance improvements.
- BSH Taxi Services (bshtaxiservices.com, bshaccounts.in): booking website with Cashfree payments and automated WhatsApp and email notifications for trip assignment, start and cancellation.
- Responsibilities across both: frontend, backend, database, deployment, debugging and testing.

PROJECTS

LinkedIn AI Agent | Python, Selenium, OpenAI API, LLMs Sep 2025

- Built an AI agent that browses LinkedIn profiles and automates connection requests and LLM-generated personalized messages, with session management and rate limiting.

Medha XL Admin Portal | Spring Boot, Tailwind CSS, HTML, JavaScript Jun 2025

- Developed an admin portal (medhatest.com) with dashboard for student registration, fee tracking, batch scheduling and payment reports, with search and filtering.

BSH Accounts — Expense & Income Management System | Node.js, Express, MySQL, JWT Nov 2025

- Built and deployed (exp.bshtaxiservices.com) a full-stack income and expense tracker with role-based access, JWT authentication, file uploads and monthly/yearly reports (frontend, backend, database, deployment, testing).

TECHNICAL SKILLS

- **Java:** Java (Core and Advanced), Spring Boot, Spring MVC, Spring Security, REST APIs, JWT, Maven, JDBC
- **Python:** Python, FastAPI, Selenium, OpenAI API, Large Language Models (LLMs), Prompt Engineering, SenseML
- **Web and Databases:** JavaScript, React, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, MySQL
- **Integrations:** Cashfree, SabPaisa, WhatsApp and email messaging
- **Tools and Concepts:** Git, GitHub, Postman, Docker, AWS, Appian, OOP, Multithreading, Role-Based Access Control (RBAC), MVC Architecture

EDUCATION

- B.Tech in Mechanical Engineering, Sir C.R. Reddy College of Engineering, Eluru (JNTUK), 2022 – 2025, CGPA 8.02
- Diploma in Mechanical Engineering, Government Polytechnic College, Vijayawada (SBTET), 2018 – 2021, 67.04%
